

**Is God
Green?**

Is God Green?

Does the Bible talk about global warming?

Does the Bible talk about ocean levels rising?

Did the Bible predict that our generation could ruin the planet?

What would a green God say to you?

These questions, and many more on topics of origins, purpose, destiny and stress, will be addressed by Dr. Greg Evans.

Dr. Greg Evans, an international speaker and regular presenter of *Nature's Lesson Book* on TV worldwide, is now in Christchurch!

"What Greg Evans shared is amazing ... it makes so much sense."

"Wow! Very thought provoking."

"I guarantee that anyone who hears this will be blown away."

Don't miss out. You might never have this opportunity again.

Commencing: Tuesday, 30 June, 7:30pm

**Venue: Ilam Seventh-day Adventist Church,
24 Ilam Road, Ilam**

Free Admission
